Information about “Introduction to Physics I” for students of Biology, Pharmacy and Geosciences

- The language of the lecture and the exercise classes is English. For better understanding all exercise sheets are also available in German.
- The exercise classes are optional. Students don't have to hand in solutions of the exercises. But the participation is highly recommended for the preparation of the exam.
- The students are distributed in an alphabetic order among their study program (Bio, Pharma, Geo). Bachelor of Arts students and other studies are attributed to Biology for the exercise classes. See overview sheet of the exercise classes on ADAM. Exercise classes cannot be changed.
https://adam.unibas.ch/goto_adam_crs_482447.html
- The exercise classes start next week, on Tuesday/Wednesday, 26./27.9.2017.
- The exercise sheets and solutions are published online in the ADAM folder of the lecture:
https://adam.unibas.ch/goto_adam_crs_482447.html
- Exam
 - **Friday, 2.2.2018 (9:00 – 11:00 h)**
